#### NOTES TO FINANCIAL STATEMENTS April 30, 2025 (Unaudited)

#### **NOTE 1 - ORGANIZATION**

Elevation Series Trust (the "Trust") was organized on March 7, 2022, as a Delaware statutory trust, and is authorized to issue multiple investment series. The Trust is registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. These financial statements relate to two series of the Trust, SRH REIT Covered Call ETF and SRH U.S. Quality GARP ETF (formerly known as SRH U.S. Quality ETF) (each a "Fund" and collectively the "Funds"). SRH REIT Covered Call ETF's investment objective is to provide total return. Under normal circumstances, the Fund invests at least 80% of its net assets in Real Estate Investment Trusts ("REITS") that are publicly traded on domestic stock exchanges. In addition, the Fund strategically implements an option strategy consisting of writing (selling) U.S. exchange-traded covered call options on the REITs in the Fund's portfolio. The Fund commenced operations on November 1, 2023. SRH U.S. Quality GARP ETF's investment objective is to provide investment results (before fees and expenses) that correspond to the SRH U.S. Quality GARP Index (formerly known as the SRH U.S. Quality Index)). The Index is intended to capture the performance of U.S. companies that exhibit consistent and moderate revenue growth but do not trade at excessive valuations. The creator of the Index, SRH Advisors, LLC (formerly known as Rocky Mountain Advisors, LLC) ("SRH"), has designed the Index to provide exposure to a diversified portfolio of U.S. companies featuring value, growth, and quality characteristics while maintaining overall market exposure close to that of widely followed, broad-based U.S. equity benchmarks. The Fund commenced operations on October 4, 2022.

The Funds currently offer an unlimited number of one class of shares, without par value, which are listed and traded on the NYSE Arca, Inc (the "Exchange"). The Funds issue and redeem shares only in creation units ("Creation Units") which are offered on a continuous basis through Paralel Distributors LLC (the "Distributor"), without a sales load (but subject to transaction fees, if applicable), at the net asset value per share next determined after receipt of an order in proper form pursuant to the terms of the Authorized Participant Agreement, calculated as of the scheduled close of regular trading on the Exchange on any day on which the Exchange is open for business. The Funds do not issue fractional Creation Units. The offerings of the Funds' shares are registered under the Securities Act of 1933, as amended.

#### **NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). This requires management to make estimates and assumptions that affect the reported amounts in the financial statements. Actual results could differ from those estimates. The Funds are investment companies and follow accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Topic 946 "Financial Services – Investment Companies," including Accounting Standard Update 2013-08.

**Portfolio Valuation:** The net asset value per share ("NAV") of the Funds is determined no less frequently than daily, on each day that the New York Stock Exchange ("NYSE") is open for trading, as of the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time). The NAV is determined by dividing the value of the Funds' total assets less its liabilities by the number of shares outstanding.

Domestic equity securities traded on any exchange other than the NASDAQ Stock Market LLC ("NASDAQ") are valued at the last sale price on the business day. If there has been no sale that business day, the securities are valued at the mean of the most recent bid and ask prices on the business day. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day. Portfolio securities traded in the over-the-counter market, but excluding NASDAQ, are valued at the last quoted sale price in such market. Options are valued at the mean of the highest bid and lowest ask prices on the principal exchange on which the option trades. If no quotations are available, fair value procedures will be used. Debt obligations with maturities of 60 days or less are valued at amortized cost.

Securities for which market quotations are not readily available, including circumstances under which Paralel Advisors LLC (the "Adviser") determines that prices received are unreliable, are valued at fair value according to procedures established and adopted by the Funds' Board of Trustees (the "Board"). Pursuant to Rule 2a-5 under the 1940 Act, the Board has designated the Adviser as the Funds' valuation designee with respect to the fair valuation of the Funds' portfolio securities, subject to oversight by and periodic reporting to the Board.

The Funds disclose the classification of their fair value measurements following a three-tier hierarchy based on the inputs used to measure fair value. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the best information available.

Various inputs are used in determining the value of the Funds' investments as of the end of the reporting period. When inputs used fall into different levels of the fair value hierarchy, the level in the hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 – Unadjusted quoted prices in active markets for identical investments, unrestricted assets or liabilities that the Funds have the ability to access at the measurement date;

Level 2 – Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

Level 3 – Significant unobservable prices or inputs (including the Funds' own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

### **NOTES TO FINANCIAL STATEMENTS** April 30, 2025 (Continued) (Unaudited)

<sup>(a)</sup> For detailed descriptions and other security classifications, see the accompanying Schedule of Investments.

<sup>(b)</sup> Other financial instruments are derivative instruments reflected in the Schedule of Investments.

**Cash and Cash Equivalents:** Cash and cash equivalents may include demand deposits and highly liquid investments, typically with original maturities of three months or less. Cash and cash equivalents are carried at cost, which approximates fair value.

Securities Transactions and Investment Income: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded as of the ex-dividend date or for certain foreign securities when the information becomes available to the Funds. Certain dividend income from foreign securities will be recorded, in the exercise of reasonable diligence, as soon as the Funds are informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and rates. Non-cash dividends included in dividend income, if any, are recorded at the fair value of the securities received. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis using the effective yield method.

**REITs**: The SRH REIT Covered Call ETF may invest in REITs and is subject to certain risks associated with those investments. The value of investments in REIT shares may decline because of adverse developments affecting the real estate industry and real property values. Real estate values can be affected by a variety of factors, including supply and demand for properties, the economic health of the country or of different regions, and the strength of specific industries that rent properties. Also, qualification as a REIT under the Internal Revenue Code of 1986, as amended, in any particular year is a complex analysis that depends on a number of factors. There can be no assurance that an entity in which the Fund invests with the expectation that it will be taxed as a REIT will, in fact, qualify as a REIT. An entity that fails to qualify as a REIT would be subject to a corporate level tax, would not be entitled to a deduction for dividends paid to its shareholders and would not pass through to its shareholders the character of income earned by the entity.

Distributions received by the Fund from REITs may consist of dividends, capital gains and/or return of capital. Dividend income from REITs is recognized on the exdividend date. The calendar year-end amounts of ordinary income, capital gains, and return of capital included in distributions received from the Fund's investments in REITs is reported to the Fund after the end of the calendar year, and the Fund estimates these amounts for accounting purposes until the characterization of REIT distributions is reported to the Fund after the end of the calendar year. Estimates are based on the most recent REIT distribution information available.

**Distributions to Shareholders**: Dividends from net investment income of the Funds, if any, are declared and paid monthly for SRH REIT Covered Call ETF and quarterly for SRH U.S. Quality GARP ETF, or as the Board may determine from time to time. Distributions of net realized capital gains earned by the Funds, if any, are declared and distributed at least annually.

**Federal Income Tax:** For federal income tax purposes, the Funds currently intend to qualify, as regulated investment companies under the provisions of Subchapter M of the Internal Revenue Code of 1986, as amended, by distributing substantially all of their earnings to their stockholders. Accordingly, no provision for federal income or excise taxes has been made.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by each Fund, timing differences and differing characterization of distributions made by each Fund as a whole.

As of and during the period ended April 30, 2025, the Funds did not have liabilities for any unrecognized tax benefits. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expenses, in the Statements of Operations. As of April 30, 2025, there were no interest or penalties incurred by the Funds. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return for federal purposes and four years for most state returns. There are no uncertain tax positions that require a provision for income taxes.

## NOTES TO FINANCIAL STATEMENTS April 30, 2025 (Continued) (Unaudited)

#### **NOTE 3 - DERIVATIVE FINANCIAL INSTRUMENTS**

As a part of SRH REIT Covered Call ETF's investment strategy, the Fund may invest to a lesser extent in derivatives contracts. In doing so, the Fund will employ strategies in differing combinations to permit them to increase, decrease, or change the level or types of exposure to market factors. Central to those strategies are features inherent in derivatives that make them more attractive for this purpose than equity or debt securities; they require little or no initial cash investment, they can focus exposure on only certain selected risk factors, and they may not require the ultimate receipt or delivery of the underlying security (or securities) to the contract. This may allow the Fund to pursue its objectives more quickly and efficiently than if it were to make direct purchases or sales of securities capable of affecting a similar response to market factors.

**Risk of Investing in Derivatives:** The Fund's use of derivatives can result in losses due to unanticipated changes in the market risk factors and the overall market. In instances where the Fund is using derivatives to decrease, or hedge, exposures to market risk factors for securities held by the Fund, there are also risks that those derivatives may not perform as expected, resulting in losses for the combined or hedged positions.

Derivatives may have little or no initial cash investment relative to their market value exposure and therefore can produce significant gains or losses in excess of their cost. This use of embedded leverage allows the Fund to increase its market value exposure relative to its net assets and can substantially increase the volatility of the Fund's performance.

Associated risks from investing in derivatives also exist and potentially could have significant effects on the valuation of the derivative and the Fund. Typically, the associated risks are not the risks that the Fund is attempting to increase or decrease exposure to, per its investment objectives, but are the additional risks from investing in derivatives.

Examples of these associated risks are liquidity risk, which is the risk that the Fund will not be able to sell or close out the derivative in a timely manner, and counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Fund. In addition, use of derivatives may increase or decrease exposure to the following risk factors:

Equity Risk: Equity risk relates to the change in value of equity securities as they relate to increases or decreases in the general market. Associated risks can be different for each type of derivative and are discussed by each derivative type in the notes that follow

**Option Contracts:** The Fund may enter into options transactions for hedging purposes and for non-hedging purposes such as seeking to enhance return. The Fund may write U.S. exchange-traded covered call options on REITs held by the Fund. A call option on an asset written by the Fund obligates the Fund to sell the specified asset to the holder (purchaser) at a stated price (the exercise price) if the option is exercised before a specified date (the expiration date). Premiums received when writing options are recorded as liabilities and are subsequently adjusted to the current value of the options written. Premiums received from writing options that expire are treated as realized gains. Premiums received from writing options, which are either exercised or closed, are offset against the proceeds received or amount paid on the transaction to determine realized gains or losses.

As of April 30, 2025, the effects of derivative instruments on the Statement of Assets and Liabilities were as follows:

The average monthly notional value of written option contracts for the Fund was \$22,013,040 during the period ending April 30, 2025.

#### **NOTE 4 - ADVISORY FEES AND OTHER AFFILIATED TRANSACTIONS**

The Adviser serves as the investment adviser to the Funds. Pursuant to the Investment Advisory Agreements, the Funds pay the Adviser a Unitary Management Fee, which is calculated daily and paid monthly, at an annual rate of 0.75% for the SRH REIT Covered Call ETF and 0.35% for the SRH U.S. Quality GARP ETF of the respective Fund's average daily net assets. Out of the Unitary Management Fees, the Adviser has agreed to pay substantially all of the expenses of the Fund,

## SRH Funds

### **NOTES TO FINANCIAL STATEMENTS** April 30, 2025 (Continued) (Unaudited)

including the cost of transfer agency, custody, fund administration, trustees and other non-distribution related services necessary for the Funds to operate, except for: the fees paid to the Adviser pursuant to the Investment Advisory Agreement, interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, distribution (12b-1) fees and expenses, litigation expenses, and other non-routine or extraordinary expenses.

SRH has served as the primary sub-adviser to SRH REIT Covered Call ETF since inception. Pursuant to a Sub-Advisory Agreement between the Trust, the Adviser, and SRH, SRH is responsible for the day-to-day management of the Fund's portfolio and determining the portfolio securities to be bought and sold.

Vident Asset Management ("Vident") has served as the trading sub-adviser to SRH REIT Covered Call ETF since inception and has served as the sub-adviser to SRH U.S. Quality GARP ETF since July 14, 2023. Pursuant to a Sub- Advisory Agreement between the Trust, the Adviser, and Vident, Vident is responsible for trading portfolio securities on behalf of the Funds, including selecting broker-dealers to execute purchase and sale transactions as instructed by the Adviser or in connection with any rebalancing or reconstitution of SRH U.S. Quality GARP ETF's Index.

For the services SRH and Vident provide to the Funds, they are compensated by the Adviser out of its Unitary Management Fee for the respective Fund.

Paralel Technologies LLC (the "Administrator"), the parent company of the Adviser and the Distributor, serves as the Funds' administrator and fund accountant pursuant to an Administration and Fund Accounting Agreement. The Administrator provides the Funds with certain administrative, tax and accounting services. Fees for these services are paid by the Adviser out of its Unitary Management Fees.

Paralel Distributors LLC (the "Distributor"), a wholly owned subsidiary of the Administrator and affiliate of the Adviser, acts as the principal underwriter for the Funds and distributes shares pursuant to a Distribution Agreement. Shares are continuously offered for sale by the Distributor only in Creation Units as described in Note 1. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934, as amended, and is a member of the Financial Industry Regulatory Authority.

State Street Bank and Trust Company ("State Street") serves as the custodian of the Funds' assets pursuant to a Custody Agreement and as the transfer agent pursuant to a Transfer Agent Agreement. Fees for these services are paid by the Adviser out of its Unitary Management Fee.

The officers and the Interested Trustee of the Trust are officers or employees of the Adviser, Administrator, and/or Distributor. No persons (other than the Independent Trustees) receive compensation for acting as a trustee or officer. For their services, Independent Trustees receive a quarterly retainer, meeting fees, as well as reimbursement for reasonable travel, lodging and other expenses in connection with attendance at meetings. Trustee fees and expenses are paid by the Adviser out of its Unitary Management Fee for each Fund.

#### **NOTE 5 - PURCHASES AND SALES OF SECURITIES**

For the period ended April 30, 2025, the cost of purchases and proceeds from sales of investment securities, excluding short-term investments and in-kind transactions, were as follows:

Fund	F	Purchases		
SRH REIT Covered Call ETF	\$	12,360,988 \$	12,400,461	
SRH U.S. Quality GARP ETF		56,815,250	56,813,794	

For the period ended April 30, 2025, in-kind transactions associated with creations and redemptions for the Funds were as follows:

SRH REIT Covered Call ETF	\$	8,599,920 \$	8,735,985	
SRH U.S. Quality GARP ETF		67,707,793	52,452,534	

#### **NOTE 6 - BENEFICIAL INTEREST TRANSACTIONS**

Shares are purchased from or redeemed by the Funds only in Creation Unit size aggregations generally of 25,000 and 50,000 Shares for SRH REIT Covered Call ETF and SRH U.S. Quality GARP ETF, respectively, with Authorized Participants. Authorized Participants must be either broker-dealers or other participants in the clearing process through the Continuous Net Settlement System of the NSCC, clearing agencies registered with the SEC, or DTC Participants and must execute a Participant Agreement with the Distributor and accepted by State Street. Transactions of Creation Units generally consist of an in-kind designated portfolio of securities ("Deposit Securities"), with a cash component equal to the difference between the Deposit Securities and the NAV per unit of each Fund on the transaction date. The Funds may require cash to replace Deposit Securities if such securities are not available in sufficient quantities for delivery, are not eligible to be transferred or traded, are restricted under securities laws, or as a result of other situations.
